North Biharis are not happy when forced to fly to Patna instead of Darbhanga Airport

I had to take the Patna flight from Mumbai, as I could not fly to Darbhanga.I wanted to book a Multi City trip from New York City to Darbhanga for January 4rth. Like most of Tirhutia I too had a strong desire to book a ticket for Darbhanga. But there were two problems.

(1) Air India does not fly to Darbhanga(Why?). I wanted to use it as my Domestic Carrier, as a choice for a multi-city connection, coming from JFK. New York. Air India still allows two check in bags, which is very helpful.

(2) Fog related cancellation of Darbhanga flights.

I want to draw the attention of our Tirhut politicians and Business leaders. North Bihar is losing financially a lot everyday for not having proper landing facilities at Darbhanga Airport and not having Air India flights.
Taxi, hotels, food, family pickup and departure related MONEY(travel RUPEES) are forced to go to PATNA(against our will). Our Tirhutia businessmen lose opportunity cost. All the above associated money could have been pumped into the economy of North Bihar. Isn't North Bihar's population bigger than South Bihar? Have we not sent more MPs to Delhi than Magadh, Ang and Bhojpur combined ? Then why is our voice not heard?

We need Air India to begin daily flights to Darbhanga from all major domestic cities.Secondly we need an all weather landing facility at Darbhanga Airport as soon as possible. We demand quick resolution of both issues, both from JDU and BJP leaders, who are enjoying double engine power due to our valuable votes.
